25 years of Defining Moments & Nurturing Smiles

Silver Jubilee Celebration

A testament to our
Gold Standard in
Exceptional patient care.

- Country's **first pediatric hospital** to have 2 flagship hub hospitals, one each in Hyderabad and Bengaluru, **awarded with JCI Accreditation**
- Country's **first standalone fertility center** BirthRight Fertility, Kondapur, Hyderabad awarded **JCI Accreditation**

Dr. Ramesh Kancharla

Pediatric Healthcare Visionary

Chairman & Managing Director

Dr. Ramesh comes from an agricultural background from a village in Andhra Pradesh, India where the accessibility to healthcare was very poor. This motivated Dr. Ramesh to pursue medical education

Garnered rich experience in pediatric gastroenterology and liver disease at best pediatric hospitals in the United Kingdom and got exposed to the nuances of pediatric healthcare model at these hospitals

Lack of quality pediatric healthcare in the country and his resolve that no child should suffer due to lack of dedicated medical facilities led to the foundation of Rainbow Children's Hospitals in 1999

Rainbow is currently the country's largest pediatric hospital chain with 19 hospitals spread across 6 cities

Bestowed with Healthcare leader of year award by the Financial Express, Healthcare award, 2024

Our Vision

Our aim at Rainbow Children's Hospital is to provide **highest standards of care for the mother, foetus, new born and children** so that none of them is deprived of a tertiary care facility.

Our Mission

The measure of our success is in the number of smiling faces.

Awards & Accolades

Best Hospital for Mother & Childcare
Best Hospital for Obstetrics and Gynecology 2024

Guinness Book of World Record Holder for the largest gathering of people born prematurely – 2016

South East Asia's smallest baby born at Rainbow Children's Hospital, Hyderabad - 2018

No.1 Paediatrics, and Gynaecology & Obstetrics Hospital India
Best Hospital Ranking - 2023

The Week and Hansa Research Survey – **India's No.1 in Pediatrics** standalone Hospitals – 2021 & 2022

BirthRight Fertility by Rainbow Hospitals is the **first accredited Fertility hospital in India**

First & Only Pediatric hospital in India to get JCI accredited

India's **first NABH accredited corporate children's hospital**

12 of Rainbow Children's Hospital are NABH Accredited

Awarded for "Excellence in Fertility in Elets Healthcare Innovation Award - 2023

Pharmacie De Qualite' certification from the Bureau of De Veritas – Rainbow Children's Hospital, Banjara Hills – 2017

Awarded Best Children's Hospital by CNBC TV 18 and ICICI Lombard - 2010, 2014, 2018

VCCircle – Best pediatric Hospital (under Best Single Specialty Healthcare Company Category – 2015, 2016

Ranked No.1 Pediatric Hospital, India by Times Critical Care Survey – 2023, 2022, 2021

Ranked No.1 Obstetrics and Gynecology Hospital in India Critical Care Survey – 2021

The Best Multi Specialty Hospital in Fertility and IVF category 2018-2019

25 years of Rainbow Journey

1999-2010

Established standalone pediatric specialty hospital concept

Integrated perinatal services within the children's hospital

Expansion within Hyderabad and a new city - Vijayawada

Nurtured perinatal services

Enhanced Pediatric multi specialty and tertiary care services

Investment by the CDC Group, UK

2011-2013

2014-2017

Foray into newer cities – Bengaluru and New Delhi

Hub and Spoke model nurtured in Hyderabad

Second tranche of investment by the CDC Group, UK

2018-2024

Successful listing on the stock exchanges - NSE and BSE

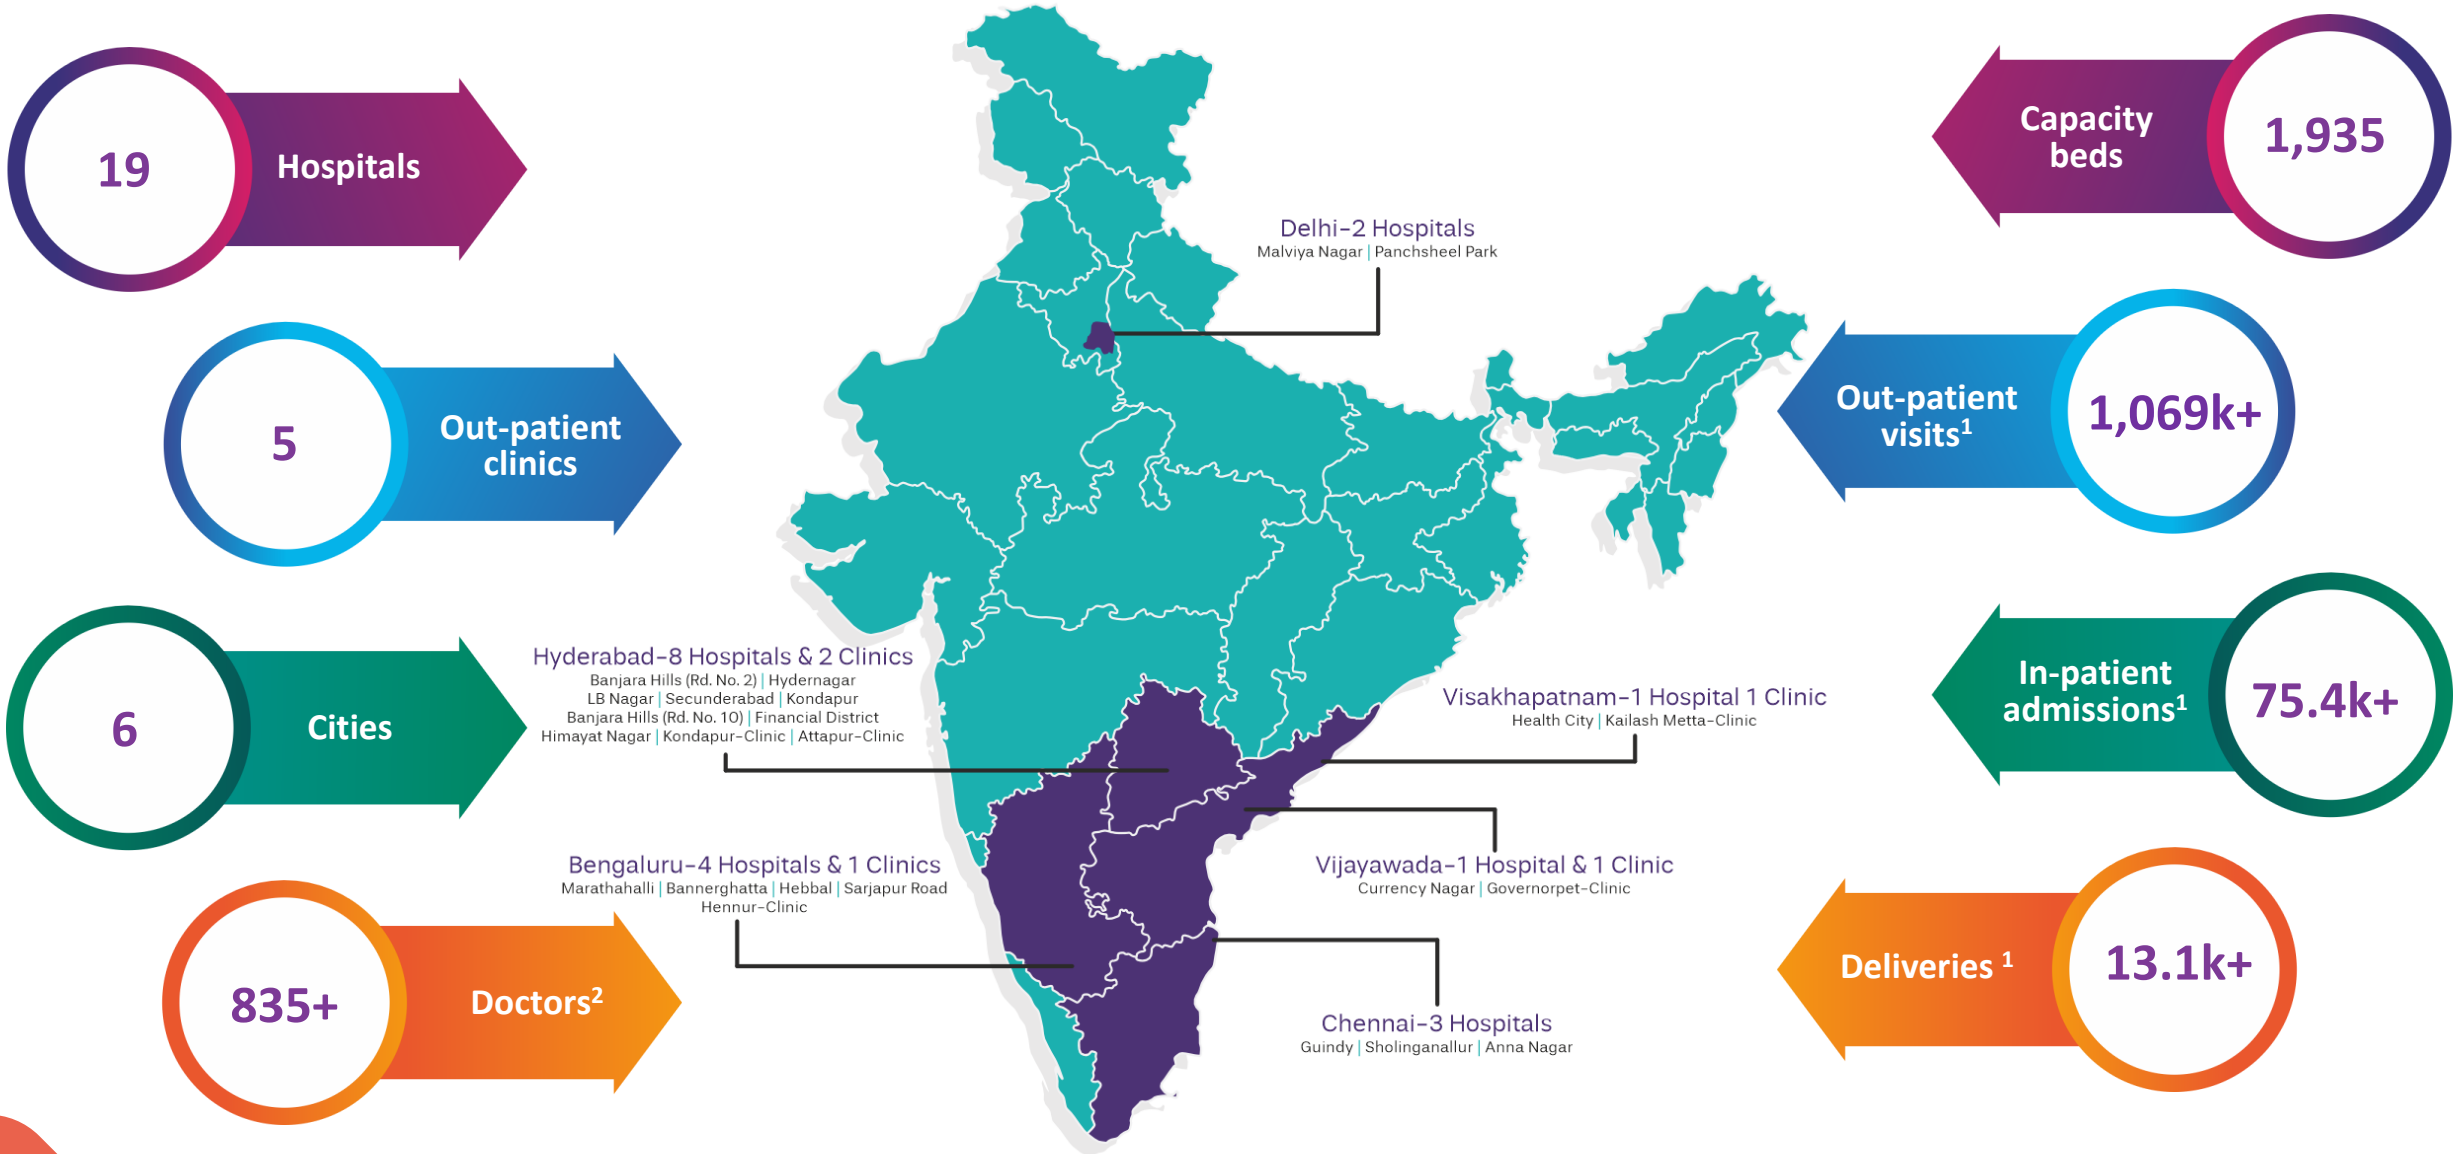

Largest chain of comprehensive pediatric care with cutting-edge quaternary care services

Largest pediatric training program in private healthcare in the country

Venturing into newer territories: Chennai and Visakhapatnam

Pioneering the way: The first pediatric and fertility hospital to earn prestigious JCI accreditation in the country

Footprint of Rainbow Hospital

Note: ¹ Numbers for 9M FY25; ² Including full time residents and DNB

An insight into the Rainbow approach

A novel approach in pediatrics healthcare services

Ability to conceptualize, create and operate specialized children's hospitals

Children Centric Hospitals

Children centric environment and soothing interiors help in children to recover faster

Allocation of significant portion of capex towards interiors of hospitals for creating congenial environment

Doctor engagement model fostering loyalty and sustainability with an institution-first approach

- **835+ full time doctors**
- **A number of doctors trained or possess qualifications from the UK, USA, Canada, Australia**
- **Modern infrastructure and clinical back-up to provide quality care**

- **Recognised as MRCPCH Examination Centre**
- **Recognised as training center¹ by National Board of Examinations**
- **Leading training program in India approved by National Board of Examinations**

- **Retainer/Support in beginning years**
- **Competitive compensation and rewards**
- **Opportunities to grow, absorb in the Rainbow network**
- **Multidisciplinary approach to create comprehensive clinical environment and better work life balance**

- **Two decades of pioneering work**
- **One of the advanced institutes offering all Paediatrics specialities under one roof including quaternary care**
- **One of the leading comprehensive perinatal centres**

Note: ¹ For offering training in Pediatrics, Neonatology, Pediatrics Intensive Care, Pediatric sub specialties, Obstetrics and Gynaecology

The specialist in comprehensive children's care

Full suite of Pediatric offerings

Pediatric Secondary Care

- Pediatric outpatients
- Immunizations
- Developmental Screening
- Acute and seasonal illness

~1/3 of Beds Allocated
to Critical Care

Pediatric Tertiary Intensive Care

- Care of preterm babies with low/extremely low birth weight
- New born emergency transports
- Neonatal surgical Services
- Advanced ventilation including HFOV
- Pediatric neurocritical care services
- ECMO services

3 Hospitals
Accredited by JCI#

Pediatric Multi-specialty & Quaternary Care

- Pediatric Surgery, urology and minimal invasive surgery
- Pediatric Cardiology and cardiac surgery
- Pediatric Neurology and neuro-surgery
- Pediatric Haemato-oncology
- Pediatric Gastroenterology and liver diseases
- Pediatric Nephrology
- Pediatric Pulmonology and allergy
- Pediatric transplantation (liver, kidney, bone-marrow)
- CRRT, plasmapheresis, hemodialysis

13 Hospitals
Accredited by NABH

Comprehensive perinatal care provider, with synergies between paediatric and perinatal services

Comprehensive services for all pediatric care needs

Pediatrics

- 24*7 full spectrum of Pediatric multi specialty cover with level 4 NICU care

Coordinated handholding for both perinatal and pediatric services

Ease of seeing both pediatrician and obstetrician

- Comprehensive perinatal service
- 24/7 Obstetrics, anesthesia, blood bank
- Maternity ICU

Obstetrics, Fetal Medicine & Fertility

Fully integrated maternity care and fertility services

Accessibility/nativity/comfort/
knows the system/strong recommendation
from pediatrician

Full range of fetal service included cardiac
echo/neonatologist consultation prior to
delivery

Hub and Spoke approach to optimise delivery of patient care services at scale

City level hub and spoke model

Accessibility of super-specialty at hubs, general pediatrics at spokes

Regional level "South Connect" model

Regional spokes at 200-250 kms from city hubs

Regional spokes to provide high quality Pediatric, obstetrics and gynaecology care at tier-II cities and act as connecting bridge to address a large market

- Robust transport network to save sick new born and children from districts
- Establish Pediatric sub-specialty outreach clinic at districts
- Provide emergency service for maternal and Pediatric patients

Financially prudent expansion

Network effect and synergies enhance operational efficiencies

Hub & Spoke Model

Hyderabad

Bengaluru

Chennai

● Hub ● Spoke ● Upcoming Hospital

- Hub Hospital is centrally situated, providing accessibility from all part of the city
- Spokes hospitals are situated at areas experiencing rapid growth and development, strategically located to ensure convenient access for nearby towns and cities

World's First Fetal Balloon Aortic Valvuloplasty with Pioneering Closure Device

- A 35 year old mother was noticed to have severe aortic stenosis and LV dysfunction with flow reversal in ascending aorta.
- A multidisciplinary team at Rainbow Children's Heart Institute successfully performed a fetal balloon aortic valvuloplasty on a 27-week-old fetus diagnosed with critical aortic stenosis.
- The ground-breaking aspect of this procedure was the use of a closure device to seal the puncture site, making it the first known case globally with this innovative approach.
- The procedure was led by Dr. Nageswara Rao alongside a team of fetal medicine specialists, pediatric and interventional cardiologists, and obstetricians.
- The fetus showed significant cardiac improvement post-procedure, and after a healthy delivery, the baby was monitored and successfully discharged in good health.
- This pioneering success marks a milestone in fetal cardiology, expanding the possibilities of in-utero interventions and providing hope for families worldwide dealing with severe fetal heart conditions.

<https://bwhealthcareworld.com/article/rainbow-childrens-heart-institute-achieves-world-first-in-fetal-aortic-valvuloplasty-with-device-closure-544580>

Severe Blood Infection and Multi-Specialty Critical Care: A Life-Saving Recovery

- An 8-year child developed fever with a rash for a week and swelling with skin discoloration on the right cheek for four days. The child was initially treated at a nearby hospital but was referred to Rainbow Children's Hospital as the condition worsened.
- The child was in critical condition and arrived the hospital in shock along with fulminant sepsis.
- A multidisciplinary team of doctors, including pediatric intensivist, nephrologist, infectious disease specialists, pediatric cardiologist, plastic surgeons, nutritionists, and physiotherapists, worked together to manage the condition.
- The child needed hemodialysis for kidney support, extensive debridement of infected tissues and exceptional wound care to prevent scarring. Full fledged rehabilitation was done to re-establish neck movements.
- With intensive care, antibiotic treatment, and life-saving interventions, the child gradually recovered and was moved out of the ICU after 8 days.
- The child responded well to treatment, the infection cleared, and was discharged after 16 days in the hospital.
- This case emphasizes the significance of a pediatric multispecialty hospital in delivering comprehensive, multidisciplinary care.

NECK SWELLING

SURGERY SHOWING PUS AND DEAD TISSUES IN THE NECK

Straightening the Curve: Life-Changing Spine Surgery for a Child with Friedrich's Ataxia

- A 14-year-old child with Friedrich's Ataxia developed progressive spine deformity and breathing difficulty due to severe neuromuscular scoliosis.
- The child was conscious and alert with normal muscle strength, but had ataxia (loss of coordination), reduced breath-holding time (10 seconds), and limited chest expansion (1 cm).
- Tests showed severe sleep apnea and a restrictive & obstructive lung pattern, requiring bronchodilators and BIPAP support during surgery.
- Underwent spinal correction surgery (LIV - L3) with osteotomy and rod derotation techniques for spinal realignment.
- Post-surgery, the child was on ventilator support for 12 hours, followed by CPAP, low-flow oxygen, and gradual pressure reduction over 24 hours.
- The child had epidural pain management for 4 days, followed by a fentanyl patch and was discharged on post-op day 7 in stable condition.
- Scoliosis is common in neuromuscular disorders. Surgical correction is recommended for severe cases with a life expectancy of over 10 years, as it significantly improves quality of life and respiratory function.

Successful Keyhole Surgery for a Rare Brain Tumor in a Child

- A 7-year-old child, who is right-handed, had been experiencing persistent headaches for 10 months and a gradual loss of peripheral vision for 6 months.
- Over the past two weeks, the child also had increased frequency of urination and, in the last two days, suffered two seizure episodes with head deviation to the right.
- An MRI scan revealed a cystic tumor in the brain, specifically in the sellar and suprasellar region, extending into the right frontal lobe.
- A biopsy confirmed the diagnosis of adamantinomatous craniopharyngioma, a rare type of brain tumor.
- The child underwent minimally invasive keyhole surgery, which helped reduce complications, ensured a shorter hospital stay, and provided better cosmetic outcomes.
- Two weeks after surgery, the child is recovering well, with no visible scars and no major post-surgical issues.

About Us

Rainbow network comprises of 19 hospitals and 5 clinics in 6 cities, with a total bed capacity of 1,935 beds. Our Pediatric services under “Rainbow Children’s Hospital” includes newborn and pediatric intensive care, pediatric multi-specialty services, pediatric quaternary care (including organ transplantation); whereas our women care services under “Birthright by Rainbow” offers perinatal care services which includes normal and complex obstetric care, multi-disciplinary fetal care, perinatal genetic and fertility care along with gynecology services.

Rainbow Children’s Hospital built on strong fundamentals of multidisciplinary approach with a full-time consultant led clinical service along with 24/7 commitment in a child centric environment. The company follows a hub-and-spoke operating model where the hub hospital provides comprehensive outpatient, inpatient care, with a focus on tertiary and quaternary services, while the spokes provide emergency care in pediatrics and obstetrics, large outpatient services and comprehensive obstetrics, pediatric and level 3 NICU services. This model is successfully operational at Hyderabad and is gaining traction in Bengaluru. The endeavor is to replicate this approach in Chennai and across the National Capital Region. Subsequently Rainbow intends to expand into tier-2 cities of Southern India.

Rainbow embraces a unique doctor engagement model, where doctors work exclusively on a full-time, retainer basis. The doctors work in teams and have 24/7 commitment, which is particularly important for children’s emergency, neonatal, pediatric intensive care services and to support pediatric retrieval services. The Company also operates the country’s largest pediatric DNB training programme in private healthcare, offering post graduate residential DNB and fellowship programme.
